## FRONT-END DEVELOPER, WEB DESIGNER, WEB TEAM MANAGER

**8+ years of experience in fast-paced web development and project management**

Results-driven web developer with expertise in front-end development, UX/UI design, and project management. Adept at building high-traffic websites, optimizing workflows, and leading cross-functional teams to deliver projects on time. Passionate about creating visually appealing, accessible, and efficient web experiences. Familiar with back-end technologies such as Node.js, Express, MongoDB and SQL to support full-stack development when needed.

## EXPERIENCE

### WebSavvy Solutions
Web Developer, Web Designer, Owner
May 2024 - Present • Tustin, CA

- Founded and manage a web design and development business, overseeing client acquisition and project delivery.
- Develop custom, responsive, and SEO-optimized websites for various clients.
- Manage budgets, timelines, and client relationships to ensure successful project completion.

### SEGA of America
Web Team Manager, Web Developer, Web Designer
Jun 2017 - Mar 2024 • Irvine, CA

- Led development of high-traffic websites for major game titles, ensuring marketing alignment.
- Designed and implemented a Mega Menu for SEGA & Atlus sites, enhancing navigation and engagement.
- Streamlined team workflows, improving efficiency despite increasing project demands.
- Managed outsourced projects, provided guidance, and ensured quality control.
- Ensured compliance with GDPR & CCPA regulations in collaboration with legal teams.

### OmniSport Fitness
Web Developer & Web Designer (Contract)
Feb 2020 - Apr 2020 • Tustin, CA

- Redesigned website for a modern, user-friendly experience and improved engagement.
- Integrated MailChimp for email campaigns and optimized the contact form.

### Made Man Salon
Web Developer & Web Designer (Contract)
Nov 2016 - Apr 2017 • Tustin, CA

- Built a business website and branding, including custom logo.
- Integrated appointment booking software for a seamless user experience

## PROJECTS

**Mega Menu for SEGA & Atlus Websites**
JavaScript, HTML, SCSS, Express, Node.js, AWS Gateway, AWS Lambda, mParticle

- Developed a cross-site Mega Menu for streamlined navigation and marketing integration.
- Implemented a dynamic structure for seamless integration across multiple SEGA & Atlus properties.

**Purchase Template**
JavaScript, HTML, SCSS

- Created a modular purchase template to simplify content updates and maintain consistency.

**Newsletter Application**
JavaScript, HTML, SCSS, Express, Node.js, AWS Gateway, AWS Lambda, mParticle

- Developed a newsletter application with customizable sign-up forms (regular, giveaways, sweepstakes), minimizing manual coding for customizations, revisions, and maintenance.

**My Books Application**
MongoDB, Node.js, Express, Mongoose, EJS

- Built a CRUD-based book management application following MVC architecture.
- Users can add, edit, delete, and view authors and books, with books being assigned to specific authors.
- Integrated Mongoose for schema-based data modeling and EJS templates for the frontend.

**React Weather Application**
React, Google GeoCoding API, OpenWeather API, React Router

- Built a fully functional weather forecasting app, integrating real-time data APIs.
- Implemented four state management methods: Component State, Redux, Context API, and Hooks.

**iOS-Styled Calculator**
React, JavaScript

- Developed an iOS-inspired calculator with optimized state management.
- Implemented four state management methods: Component State, Redux, Context API, and Hooks.

## EDUCATION

**University of California, Irvine** - B.S. Information & Computer Science
**LearningFuze** - Accelerated Web Development Program
**Udemy Courses** - Modern React and Redux, Advance CSS & SASS, JavaScript ES6, Webpack 5, Typescript: The Complete Developer's Guide, Advanced React and Redux
